

Development & Project management

<u>Development surveys & studies</u>	Port studies	Project director
	Geotechnical & geophysical surveys	Project manager
	Wildlife surveys	Principal consultant
		Consultant
		Graphic design assistant
		Oceanographer
		Hydrographer
		Geophysicist
		Offshore processor
		Onshore processor
		Marine Mamma observer
		Marine ecologist

Turbine

<u>Turbine tower supply</u>	Ladders	NDT inspector
	Cross cutting: Coatings	Welder
	Cross cutting: Health & safety Equipment	Plater
		Quality controller
		Specialist coating technician
		Blasting technician
		Account manager
		Garment technologist
		Technical sales specialist
		Product data controller

Balance of plant

<u>Foundation supply</u>	Platforms	Structural engineer
	Secondary steel	Rigger
		Draughtsman
Cross cutting: training devices	Manufacturing manager	
	Production supervisor	
<u>Cable supply</u>	Splicing	CNC machinist
		Press brake operator
		Training & resourcing manager
	Ancillaries	Instructor
		Jointing supervisor
	Storage	Castle testing engineer
		Cable joiner
		Design engineer
		Test engineer
Facilities manager		
Storeperson		
Carousel & tensioner operator		
<u>Substation supply</u>	Architectural steel	Workshop manager
		Design engineer
		Design assistant
	Navigation light	Laser operator
		Scaffolder
	Cable route systems	Procurement manager
		Sales manager
		Product development engineer
		Technical sales manager
		Electrical sales engineer

Installation & Commissioning

<u>Turbine & foundation installation</u>	Mobilisation	Operations manager
	Crewing services	Crane operator
	Vessel maintenance	Technical recruiter
		Logistics coordinator
		Administrator
		Shipyards manager
		Naval architect
		Marine engineer
		Shipwright
		Pipefitter
<u>Cable installation</u>	Termination & testing	Project manager & project supervisor
	Remotely operated vehicles services	Cable joiner
	Cable protection systems	Fibre optic technician
		Electrical technician
		Top-man
		Project manager
		ROV pilot
		Vessel supervisor
		ROV sub-engineer
		Senior project engineer
		Lead design engineer
<u>Installation support</u>	Unexploded ordnance surveys & removal	UXO diver
	Guard vessels	EOD site manager
	Oil spill clean-up	EOD engineer
		UXO consultant
		Master
		Mate
		Deckhand
		Oil spill team leader
		Oil spill responder
		Oil spill consultant

Operations, maintenance & service

<u>Wind farm operations</u>	Operations	Operations & maintenance manager
	Wind farm supervisory control & data acquisition & network communication	Asset integrity manager
	Cross cutting: Communication	Operations controller
		Control room technician
		SCADA software developer
		SCADA technician
		Communications network technician
		Electronic or mechanical design engineer
<u>Turbine maintenance</u>	Blade inspection & repair	Rope access & blade repair manager
	Turbine electrical & mechanical maintenance	Rope access & blade repair supervisor
	Statutory inspections	Rope access & blade repair technician
		Site supervisor
		Wind turbine technician
		Crane & rigging inspector
		Fire safety technician
		Lift technician
<u>Structural inspection & repair</u>	Foundation inspection repair & maintenance	Diver
	Foundation cleaning	Diver supervisor
	Cross cutting: Port & harbour services	Diver tender
		Technical supervisor
		Team leader
		Cleaning operator
		Dock master
		Dock gateman
		Line handler
<u>Maintenance & service logistics</u>	Marine coordination	Marine coordinator
	Warehouse & spares management	Ships agent
	Vessel operations & maintenance	Warehouse manager
		Warehouse operative
		Vessels superintendent (operations)
		Crew manager (operations)
		Field service engineer (maintenance)
